busby chair

Busby chair designed by Samir Skalli

design

Busby is a modern cocoon for everyday situations. Used in a variety of applications Busby works particularly well as a haven for employees in open plan work spaces, suitable for one person to make confidential phone calls, and with the ability to place two or more pieces together for a more collaborative arrangement. Busby was the product of a collaborative project with the BBC and the then student designer Samir Skalli. Busby now features heavily at the BBC's new home at Media city Salford.

technical

The main body of the busby chair is constructed with FSC-certified hardwood and CMHR foams. *All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch.
